## Experience

**Southern New Hampshire University – Information Technology Student** July 2020 to Current  
Suffield, CT

- Learning Java, Python, and HTML/CSS by creating interactive web and mobile applications.
- Enhancing skills in SQL database management, enabling efficient data retrieval and analysis.
- Engaged in cybersecurity, cloud computing, and community-driven IT initiatives, showcasing strong problem-solving and communication skills.
- Developing critical thinking and problem-solving skills and applying them to analyze and solve complex problems in a variety of IT domains.
- Works on side projects, currently studying for CompTIA Network+ certification.

**Zero To Mastery Academy – Web Developer Student** January 2022 to February 2023  
Mesa, AZ

- Displayed discipline by self studying to acquire a strong foundational knowledge of key web development principles, including proficiency in multiple programming languages, web frameworks, and development tools.
- Developed practical skills in designing and implementing web applications, including experience with front-end and back-end development, user experience design, and responsive web design.
- Created a portfolio of projects that demonstrate proficiency in various web development skills and technologies, including static and dynamic websites, web applications, and database-driven systems found here.
- Engaged in active learning and collaboration with other students in the course, including participating in group projects, code reviews, and community discussions to deepen knowledge and skills and build professional connections.

**USAF Security Forces – Training NCO**

January 2020 to January 2022

820 Base Defense Group, Moody AFB, GA

- Administered Initial Qualification Training to inbound US Air Force personnel to get them trained on Group specific operating procedures, holding responsibility for up to 20 Airmen at a time.
- Oversaw mission critical programs such as Personnel Reliability and Arming/ Use of Force ensuring all squadron members were current by scheduling and conducting needed training.
- Used Microsoft tools to draw up critical documents such as trackers and cost estimations for materials, budgets, mission plans, Standard Security Instructions, and Quick Response Checklists.
- Coordinated with Supply (S-4) to ensure availability of necessary training resources, including facilities, equipment, and personnel.
- Worked with higher leadership to evaluate training needs, and develop training plans to address gaps in knowledge or skills enabling the Group to retain its mobility certifications.
- Ensured all training was conducted in accordance with established Air Force policies and standards.
- Maintained accurate training records for all personnel within the squadron, tracking individual progress and providing feedback for improvement.

**USAF Security Forces – Joint Defense Operations Center Controller**

August 2019 to January 2020

378th Expeditionary Security Forces Squadron, Prince Sultan Air Base, Saudi Arabia

- Lead the security communications and dispatch for the first two F-15 Eagles landing on the air base since 2003.
- Established the first U.S. Tactical Operations Center on the air base since 2003.
- Conducted command and control of 40-80 security forces members maintaining accountability for all equipment out on post amounting to over \$5,857,500.
- Monitored and coordinated the flow of information, resources, and personnel to support base defense operations, ensuring effective communication and situational awareness across all other base support functions.
- Utilized a variety of communication and information management systems to receive and disseminate information about potential threats and incidents to coordinate responses as needed.
- Employed Microsoft tools to maintain detailed logs and records of all activities and communications within the Joint Defense Operations Center.

**USAF Security Forces – Fireteam Leader**

June 2018 to August 2019

443rd Expeditionary Security Forces Squadron, Al Asad Air Base, Iraq /

823 Base Defense Squadron, Moody AFB, GA

- Supervised and trained a 4 member team of security forces personnel in fire team operations and tactics, ensuring they are prepared to respond to emergency situations and protect base assets.
- Conducted regular assessments and evaluations of team member performance, identifying areas for improvement and providing feedback to enhance individual and team effectiveness.
- Served as second in command for deployment operations such as conducting random anti-terrorism measurements, securing base perimeter, security details to retrieve equipment, and response to in-flight emergencies.
- Ensured the fire team was equipped with appropriate gear, and maintained accountability for all equipment to ensure readiness for any mission or contingency.

**Awards**

**Air Force Achievement Medal (with Second Oak Leaf Cluster) , 2021**

**Air Force Achievement Medal (with First Oak Leaf Cluster) , 2019**

**Air Force Achievement Medal (with Combat "C" Device) , 2019**
